

Villa Celeste

We invite you to fully unwind and experience the magic.

Villa Celeste is made of Istrian stone from the exterior, with a combination of natural materials in the interior, which gives the house the atmosphere of an idyllic and comfortable home. Each detail was carefully thought out in order to provide you with satisfaction and the comfort while staying at our villa.

A stunning view of ucka mountain creates a feeling that the beauty of living stopped the time.

The villa offers a combination of tradition and comfort, and at the same time, it is a reminder of the past times and legends.

Give way to all your senses during summer evenings under the stary sky, listening to the sound of crickets, and enjoying the scent of rosemary and lavender.

Intesify the sense of peace with the comforts of the fairy tale region.

*We invite you to fully unwind and
experience the magic.*
